

REAR RACK FOR INDIAN
SCOUT BOBBER

ITEM	PART#	QTY.	DESCRIPTION
1	5300-1	1	Main Rack
2	HDW1051	4	M8 x 20mm Flange Hex Bolt

Remove the rear beauty cover on the sides of the rear fender that have the blinker attached to them as shown.

Place rack over the top of rear fender and attach to the threaded holes on the sides of the rear fender with the M8 x 20mm Flange bolt provided with the rack. (Blue Thread Locker is recommended at this point)

Replace the side covers previously removed.

The rack is designed for approximately 40 pounds as a guideline. Exceeding this weight guideline can change the handling of your bike and possibly create a hazardous situation. The rack is not to be used as a seat, it is designed for carrying gear and light luggage.
