TENT HOLDER 5016HO

Slide the tent holder bracket on to the T-Bar tube ends and adjust where you would like them and then tighten them down with the threaded stud knobs.

Weave the straps through the slots in the tent holder brackets then once tent is in place slide strap through the buckle and tighten.

Always make sure tent is secure and do not speed with tent in place or drive over rough terrain.

Do not trailer with tent in tent hold on roads.
