ITEM	PART#	QTY.	DESCRIPTION
1	5304-70	1	Rack Weldment
2	HDW9420	2	5/8 x 1 Spacer
3	HDW9425-BLK	2	5/8 x 1/2 Spacer
4	HDW9493	4	1/2 x 3/8 Spacer
5	HDW9388	2	M8 x 50mm Button Head Screw
6	HDW9389	2	M8 x 60mm Buttone Head Screw
7	HDW9390	2	M8 x 70mm Button Head Screw

You may use a thread locking component to secure bolts in place.

Remove factory grab handles if bike is equipped with them. If bike has the KTM hard parts luggage system, you will just remove the (4) top bolts that hold racks to fender. Do not remove the spacers as the rack will sit on top of them and then use the M8 x 60mm button head screws on the rear of the rack and the M8 x 70mm button head screws in the front of the rack and tighten.

If Hard luggage is not on the bike, you will remove the (4) top bolts on rear fender and place the 1/2 x 3/8 spacer into the rubber grommets. Use the 5/8 x 1/2 spacers on the back portion of the rack and use the M8 x 60mm button head screws.

For the front portion of the rack use the 5/8 x 1 spacers and the M8 x 60 button head screws and tighten.
