

## REAR RACK INSTRUCTIONS FOR APRILIA TUAREG 660

ITEM	PART#	QTY.	DESCRIPTION
1	5302-70	1	Rack Weldment
2	HDW9036	2	Nylon Washer
3	HDW9037	1	Nylon Washer

Remove the side bolts just under the rear of the back of the seat on each side and keep bolt to re-use.

Remove the bolt on the top of rear fender just behind the seat and keep to re-use.

Place the rack on bike but first place the nylon washer with the 1/2" hole on the bolt hole location on the rear fender. Now replace the bolt you removed from this location.

Next attach the two sides with bolts you removed and place the nylon washers one on each side between rack and bike.

Once all bolts are in place tighten to bike specs.

Do not overload the rack, the recommended limit is 40 lbs.
