1	5326	1	Heat Shield
2	HDW9140	1	Hose Clamp

LARGE EXHAUST HEAT SHIELD 5326

Heat shield is intended to keep bag away from exhaust and let air flow between exhaust and heat shield to keep cooled.

Heat shield will easily clamp to exhaust with the hose clamp and has places for additional hose clamps.

This is just a preventative measure, do not rest bag on heat shield heavily.
