2	5004HO	1	Riser Tube
3	6001HO	1	Hitch Extension Tube

ATV / UTV Bucket Holder 5227K

Place the hitch extension tube in the receiver hitch and tighten in with the wobble stop bolt.

Attach the riser tube to the extension tube with the U-Bolts and adjust so it clears the back of your machine.

Assemble the bucket holder and attach it to the top of the riser tube as shown, pin in place and then tighten with the knob bolt.

Secure buckets with rubber straps across going the top of them.

Do not overload the buckets, carrying limit is 50lbs.

Do not ride over rough terrain, Do not use as a towing device, seat or grab rail this is for light duty use and buckets only.
