4	HDW2050	2	5/16 x 3/4 Hex Bolt
5	HDW9002	2	5/16 Flat Washer
6	HDW9004	2	5/16 Lock Washer

Remove the bolts that hold the middle bumper support arms to the frame.

Remove the front lower plastic skid plate

The main winch mount plate will go inside the front end and on top of the middle bumper support arms.

You may attach winch to winch mount ahead of time it may make it easier to get the lower winch mount bolts in. bolts for winch will be included with the winch.

Use the 8mm bolt in the bolt bag with the flat washers to attach the winch mount to the location you removed the bumper mount bolts from. Do not tighten yet.

Hold the fairlead plate in place on the front of the bumper to the cross member and use the 5/16 bolts and lock washer to go through the fairlead bracket, bumper and thread into the main winch mount plate.

Once all is in place tighten bolts and replace lower plastic skid plate.

Attach fairlead to fairlead bracket with hardware provided by winch company.
