

# STEP MOD KIT

Step Mod Kit Includes :

4 – Step Mods ( Hardware is not included )

The Step Mod make old steps a little safer.

The step mod kit is to give you a little extra strength in your hand made wooden steps or stairs with a little extra grip on the edges.

The kits are 24” or 16” overall length and attach on each end to vertical wood upright with your screw or bolt of choice. There are additional holes to screw or bolt the Step Mod to the horizontal step.
